

ENVIRONMENTAL POLICY

As a company we are aware that our products, services and activities have a detrimental effect on the environment. To minimise this effect we seek to:

- Comply with and exceed all relevant environmental laws and legislation
- Reduce our energy consumption and where possible use renewable energy
- Purchase paper & consumables made with a high recycled content and low embodied energy.
- Promote the reduction, reuse and recycling of waste materials from our premises to conserve resources and reduce waste.
- Develop relationships with 'green' companies to create a green supply chain from producer to consumer.
- Promote our environmental policy among employees, our customers and our suppliers.
- Offer 'greener' choices to clients when quoting
